

VitrA

VitrA Root Round & Root Square
Perfect Combination of Choice and Quality

VitrA

Perfect Combination of Choice and Quality

VitrA faucets and panels provide practicality, efficiency and durability in your bathroom through advanced technologies and engineering solutions. VitrA also offers a wide range of design options that match your style, usage habits and pleasure. High-standard VitrA products make life better with award winning designs and functionally superior features.

Quality, Innovation, Sustainability and Design

Founded by Dr. Nejat Eczacıbaşı in 1979, VitrA's production plant in Turkey started to produce sanitary taps in 1983. Today VitrA offers touchless fittings as well as antibacteria coated panels and medical fittings and accessories.

The background is a dark gray color with several abstract geometric elements. In the top left, there is a light gray rounded rectangular outline. In the top right, there is a pattern of small, light gray dots arranged in a grid that tapers towards the right. In the bottom left, there is a series of light gray lines forming a series of nested, slightly offset shapes that create a sense of depth or a stack of pages. In the bottom center, there is a solid, light gray rounded triangular shape pointing downwards. In the bottom right, there is another light gray rounded rectangular outline, similar to the one in the top left.

Thank you
