

# Vitra

Root Collection

VitruA

We progressively invest in essentially  
human spaces - the bathrooms.

### **The complete bathroom**

Exploring physical and emotional needs, Vitra invests in design to produce every essential element in the bathroom.

### **It's all about inspiration**

It all begins with questions posed by the design discipline to understand needs, desires and choices. Designed by Vitra, an extraordinary wealth of attractive combinations help satisfy these needs and desires.

### **High powered perfection**

Seven cutting-edge factories and plants in Turkey and Russia, create sophisticated designs and maintain extremely high standards, whilst progressively reducing Vitra's ecological footprint.

### **Collaboration with designers**

Vitra works with acclaimed industrial designers from around the world. Not only does the collaboration with these top talents improve product functionality, but it also introduces an entirely original range.

### **Vitra across the world**

Bathroom designs greet customers around the world through 2000 sales points in over 75 countries, including 150 exclusive Vitra showrooms in Istanbul, London, Cologne, Moscow, Dubai, Mumbai, Delhi, and other major cities.

### **Technology lights up the future**

The Vitra Innovation Centre serves as the headquarters of the brand's R&D activities with a strong engineering team, leading the bathroom industry with new solutions and technologies.

### **Improved personal hygiene**

Vitra's continuous research into human health introduces new technologies for improved hygiene in the bathroom. These solutions raise the personal hygiene experience to a new level.

### **A pledge to the future**

Vitra embraces Blue Life, a set of guidelines devised to mitigate our impact on the environment, and is held as a production, design and management philosophy.

Root

Root

# The perfect finishing touch

The collection offers two design routes, using a systematic approach to add the finishing touch to your bathroom.

## Root Round

The Root Round mixers have been designed using curved lines, ensuring a seamless flow to the washbasin.

## Root Square

The Root Square mixers have been designed with defined edges and geometric forms offering a bold and unique look to complement your bathroom.

Root

# Colours in harmony

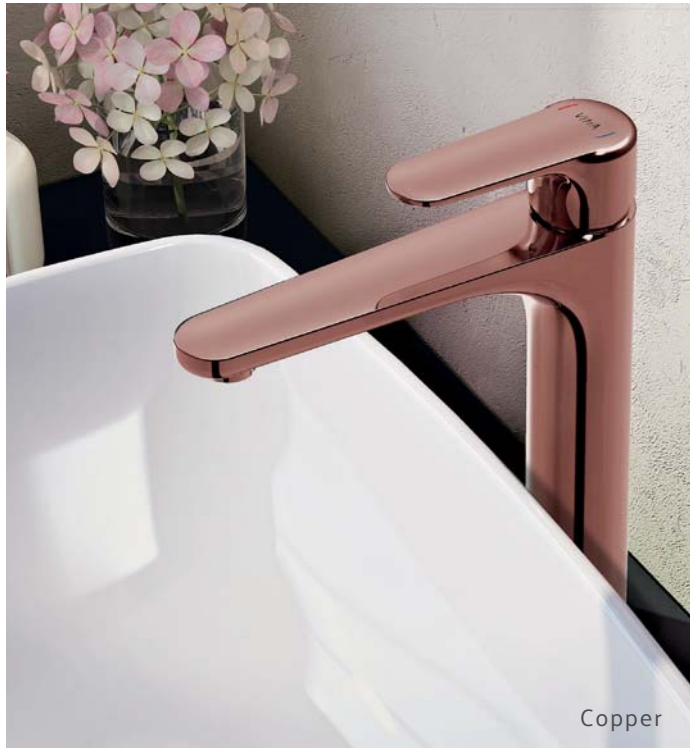

Both designs achieve a minimalist aesthetic, and are available in a variety of colours.

Mixers are available in a chrome, gold, copper, matt black or brushed nickel finish to suit your bathroom.

# Masters of state of art coating technologies

Each piece in the collection is coated using advanced technology to preserve the colour for years.

Root

# Special solutions

The collection includes a variety of options including bathtub mixers and built-in combined bath and shower mixers.

Root Square

Root

Root Round

The built-in bath and shower mixers are compatible with our concealed Minibox shower valve, maximising space in your bathroom.

Root

Thermostatic options are also available in combination with our V-Box concealed shower valve, for a safer bathroom environment.

Root

# Touch-free hand wash technology

Controlled by a built-in sensor, the VitrA Touch-free Basin Mixer improves hygiene in public toilets and reduces the risk of pathogen cross-contamination.

The sensor detects the user and contributes to water saving by stopping the flow as soon as the user moves away from the detection area.

Root

Powered by mains or batteries, these mixers are completely safe thanks to waterproof wiring conforming to IP 68 standards.

Root

Root

# Sustainability for our blue planet

Thanks to its special honeycomb aerator, the collection's Unified Water Label certified mixers provide maximum comfort and reduce water usage by 70% even in the lowest consumption category (5 litres/minute water flow).

The basin mixer cartridge with heat regulator and flow rate control provides extra savings in both energy and water consumption.

Being able to control the amount of water and energy used means we can help to conserve our natural resources.

Root

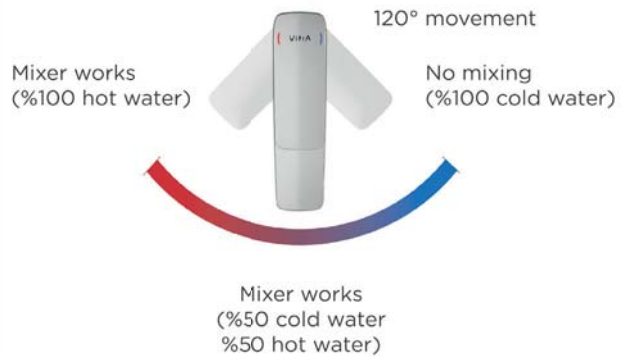

Root Square BluEco faucets saves more energy for our Blue Planet without triggering the boiler in standard mid-position opening.

### BluEco Faucet

### Standard Faucet

# Ease of use

- —

Thanks to its exclusive design, the washbasin mixers in the collection are easy to install manually with no need for extra tools.

Root

# High quality standards

The Root mixers have been tested for durability and overall performance by the International Organization for Standardization and conforms the quality certification requirements.
